Patient Feedback Report

18 February 2021

EDGECUMBE doctor 

Introduction

This report is based on the Doctor 360 questionnaires completed by yourself and your patients. It contains responses to open-ended and narrative questions. The feedback in this report will help you compare the standards of care you feel you deliver with how your patients perceive you.

We recommend that, as well as reading through this document with your appraiser, you download and save a copy of the Edgecumbe Doctor 360 Workbook from your online account in order to get the most from your report when interpreting the responses.

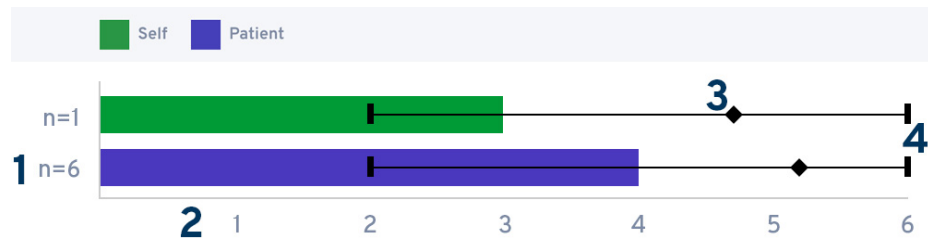

Please read the instructions on the following page for how to read your report.

How to review your report

Within your Patient Feedback Report you will find:

- A summary bar chart to illustrate your overall performance ratings
- A bar chart for each specific question. Each bar on the bar chart represents a rater category – self and patient, so that you can compare the two alongside each other.
- A ratings distribution table, which illustrates how many raters selected a specific rating in response to each question.
- A pie chart to illustrate the results of the ‘friends and family’ question.
- Your qualitative data in the form of all free text comments received from you and your patients.

Bar Charts Explained

1. NUMBER OF RATERS who responded to that question with a rating, rather than ‘can’t comment’

2. RATING SCALE

- 1 – not effectively
- 2 – partially effectively
- 3 – mostly effectively
- 4 – effectively
- 5 – very effectively
- 6 – extremely effectively

3. BENCHMARK: The black diamond symbol represents the Haematology Patient Report Benchmark (last revised 2021).

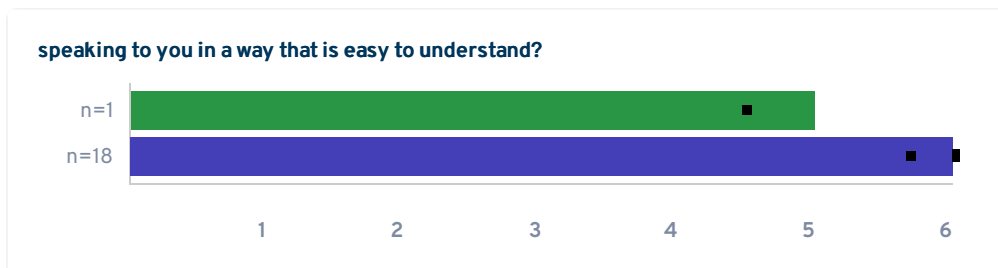

4. RANGE: The black line through each bar represents the range of ratings given by the rater category for that question.
